Project 2010-1-SI1-LEO05-01628

[www.eusr.org](http://www.eusr.org)

Dr. Dieter Nuessler

# EUSR-Med

- Reason for the project:

- The rescue of people from fall endangered areas, e.g. confined spaces, cranes, cliffs, cable cars, etc. is a special challenge for the fire service and the ambulance services.
    - Die Rettung von Personen aus absturzgefährdeten Bereichen, z.B. begrenzten Räumen, Kränen, Klippen, Seilbahnen, etc. ist eine spezielle Herausforderung für die Feuerwehren und die medizinischen Rettungsdienste.
  - To provide the best possible help for victims it would be necessary that the rescuers are multi-skilled both in rope rescue techniques and in medical emergency response.
    - Um die bestmögliche Hilfe für Betroffene zur Verfügung zu stellen, würde es notwendig sein, dass die Retter multi-funktional sowohl in der Spezialrettung als auch der medizinischen Rettung ausgebildet wären.

European Union Special Rescue - Medicine

Project 2010-1-SI1-LEO05-01628

[www.eusr.org](http://www.eusr.org)

Dr. Dieter Nuessler

# EUSR-Med

- **Reason for the project.....**

- Due to the general task of the fire service – fire fighting and rescue - on one hand and the ambulance service – urgent medical response and patient transport - on the other hand the necessary multi-skills are very often not provided by the standard vocational training program of these organizations due to the national common practice.
  - Wegen des generellen Auftrags der Feuerwehr – der Brandbekämpfung und der technischen Rettung - einerseits und derjenigen der Rettungsdienste – der dringenden medizinischen Rettung und des Krankentransports - andererseits wird in vielen Ländern diese multi-funktionale Ausbildung nicht im Rahmen der Regelausbildung für den jeweiligen Beruf angeboten

European Union Special Rescue - Medicine  
Project 2010-1-SI1-LEO05-01628  
[www.eusr.org](http://www.eusr.org)

Dr. Dieter Nuessler

# EUSR-Med

- **Main aims and objectives:**

- The project is aiming at enhancing the material developed in the Leonardo project E-rescue (LU/03/B/P/PP156000) by adding special information about triage (health status of victims) and medical treatment under emergency conditions.
  - Ziel des Projekts ist die Erweiterung der im Leonardo Projekt E-Rescue (LU/03/B/P/PP156000) entwickelten Lehrmaterialien um Informationen über Triage (Gesundheitszustand der Opfer) und notfallmedizinische Behandlung

European Union Special Rescue - Medicine  
Project 2010-1-SI1-LEO05-01628  
[www.eusr.org](http://www.eusr.org)

Dr. Dieter Nuessler

# EUSR-Med

- **Main aims and objectives:**

- The didactical concept and material of the previous project will be applied to the sector of ambulance services and/or medical doctors which do not have own specific training programs for rope rescue.
  - Das didaktische Konzept sowie das Lehrmaterial des Vorläuferprojekts wird für das Rettungsdienstpersonal und die Notfallmediziner aufbereitet, welche keine Ausbildung in der Höhenrettung erhalten haben

European Union Special Rescue - Medicine

Project 2010-1-SI1-LEO05-01628

[www.eusr.org](http://www.eusr.org)

Dr. Dieter Nuessler

# EUSR-Med

- **Characteristics of the partnership:**

- The partnership provides special experience of medical emergency doctors / emergency medical response (EMS) personell on one side and special rescue teams on one side. Both types of partners will benefit from the special knowledge of the other partners.
  - Die Partnerschaft stellt spezielle Erfahrung der Notfallmediziner / der Rettungssanitäter auf der einen Seite und der Spezialrettungsgruppen auf der anderen Seite zur Verfügung. Beide Partnergruppen profitieren vom speziellen Wissen der anderen Partner.

European Union Special Rescue - Medicine

Project 2010-1-SI1-LEO05-01628

[www.eusr.org](http://www.eusr.org)

Dr. Dieter Nuessler

# EUSR-Med

- **Outcomes of the project:**

- Curriculum for training in medical emergency response of rope rescue teams;
  - Lehrplan für die notfallmedizinische Ausbildung der Spezialrettungsgruppen;
- DVD as didactical/learning material.
  - DVD als Lehrmaterial für diese Ausbildung

European Union Special Rescue - Medicine  
Project 2010-1-SI1-LEO05-01628  
[www.eusr.org](http://www.eusr.org)

Dr. Dieter Nuessler

# EUSR-Med

- **Impact envisaged:**

- Rescue for victims in fall endangered areas will be more efficient because the necessary medical treatment in remote locations can be provided by trained responders on the spot.
  - Rettung für Patienten in absturzgefährdeten Bereichen wird effizienter, weil die notwendige ärztliche Behandlung dort von den entsprechend ausgebildeten Rettungskräften unmittelbar ohne zeitlichen Verzug geleistet werden kann.

Project 2010-1-SI1-LEO05-01628  
[www.eusr.org](http://www.eusr.org)

Dr. Dieter Nuessler

# EUSR-Med

- **Products**

- **Curriculum (Partner 4 – University hospital Aachen)**

- draft curriculum for the inclusion of medical emergency response knowledge and skills in the training programs of rope rescue teams and ambulance teams
    - draft learning key messages for every chapter
    - draft questions and answers for the testing part of the DVD
    - consult with each partner - particularly the hospital in Kranj - in relation to the implementation of the curriculum into the various training programs

European Union Special Rescue - Medicine  
Project 2010-1-SI1-LEO05-01628  
[www.eusr.org](http://www.eusr.org)

Dr. Dieter Nuessler

# EUSR-Med

- **Products**

- **DVD (Fire&Rescue Service Aachen)**

- draft the script of the medical part for the inclusion into the project DVD
    - programming of the DVD with IDEA-Software® form Link&Link, Dortmund
    - testing the training DVD by all partners,
      - e.g. at the training center for fire fighting, rescue, Civil Protection and Disaster Relief in Ig, Slovenia
      - e.g. at EMR-school in Aachen, Germany

European Union Special Rescue - Medicine  
Project 2010-1-SI1-LEO05-01628  
[www.eusr.org](http://www.eusr.org)

Dr. Dieter Nuessler

# EUSR-Med

- **Dissemination and Exploitation**

- **Workpackage 5**

- Produce an integrated plan between all the project partners for the dissemination of the results / outputs of this project to the wider emergency service community in the EU.
    - Produce a feedback report on the successful exploitation of the products in the partner countries and in the FEU community during the project.
    - Plan and lead partner meeting to finalise dissemination activities

European Union Special Rescue - Medicine

## Declaration of Staff Costs

- This table needs to be completed to show the time spent by everyone working on the project.
- You can complete one line per person, and the spreadsheet will total up their time for you.
- The information you provide must be based on the actual salary costs of each individual and calculated from timesheets showing the time spent on the project.
- The daily staff cost rate cannot exceed the maximum rate

## Travel and subsistence costs

- **Advice from the European Commission:**
  - The information should comprise partner number (required); Invoice
  - Reference Number; name of person travelling; start date; end date; duration (in days); departure city; departure country (use drop-down list); destination city; destination country (use drop-down list); objective of the trip; transport type(s); travel costs and subsistence costs.
  - The total costs for each row will be automatically calculated.
  - Each 'row' should be completed in full and should represent one person/trip
    - ('rows' should not normally be completed relating to groups).
