

Fall protection equipment set

- 1 Harness with front and rear fall arrest attachment element
- 1 Y-shaped lanyard with shock absorber
- 1 Core-mantle dynamic rope
- 1 Belay device
- 1 Rope protection
- 15 Round slings
- 15 Carabiners (twist lock)
- 2 Carabiners with automatic double lock
- 1 Transport bag

Full body harness (EN 361)

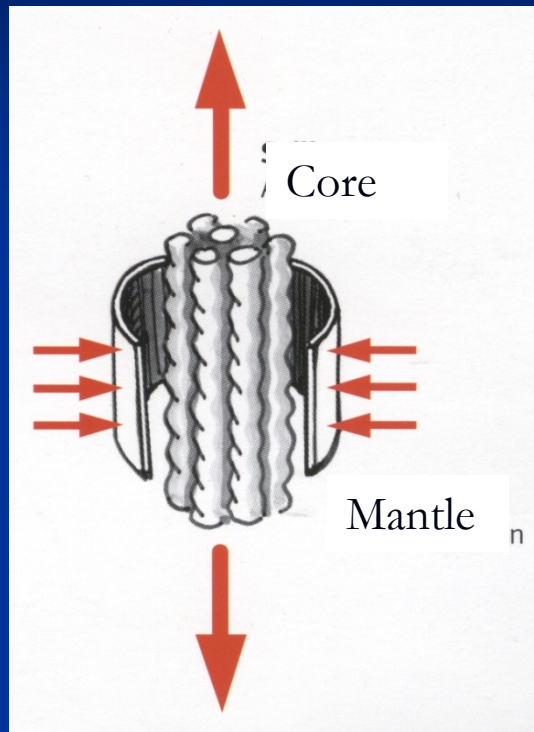

- Front and rear fall arrest attachment element
- One size fits all
- side gear loops
- Quick release buckles on the chest and leg straps

Dynamic Kernmantel rope 11 mm

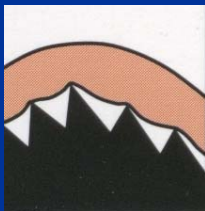

- EN 892
- 60m
- Diameter 11mm
- 12 standard falls
- Sewn connections on the ends
- Elongation 30 %
- Catch impact < 10 kN
- Tested on sharp edges
- Green and red marking at the end

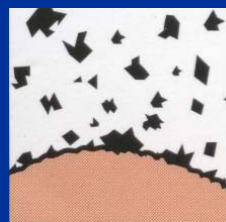

The core essentially takes over the load and dynamic function

The mantle has primarily the task to protect the core against mechanical abrasion and other external influences

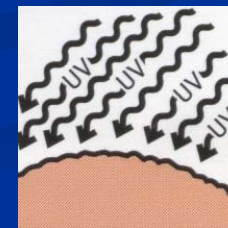

Abrasion

Dirt

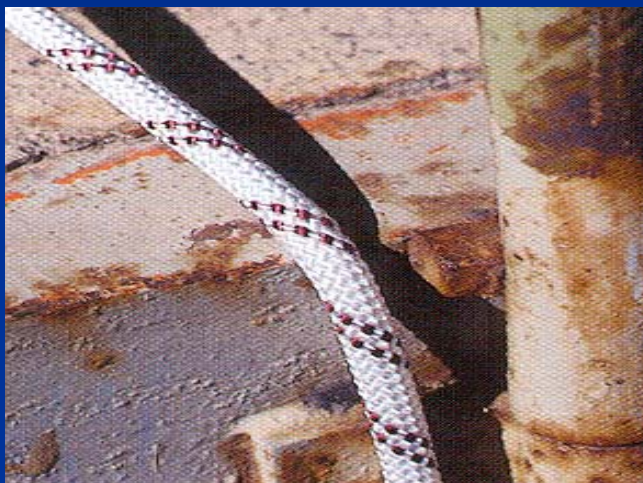

UV-radiation

Dangers in use

Avoid contact with:

- hot surfaces
- sharp edges
- Sparks
- Oils, fats, acids, alkalis
- Debris etc.

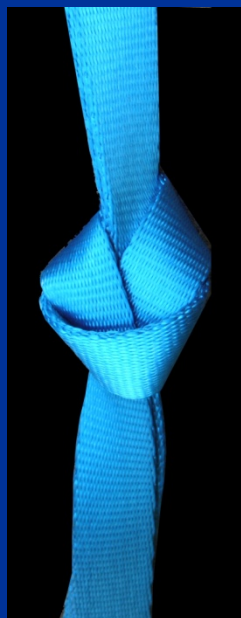

For your own safety!

Roundslings (EN 566)

- endless stitched
- Tensile strength of at least 22 kN
- Length 100 cm
- Year of manufacture sewn on

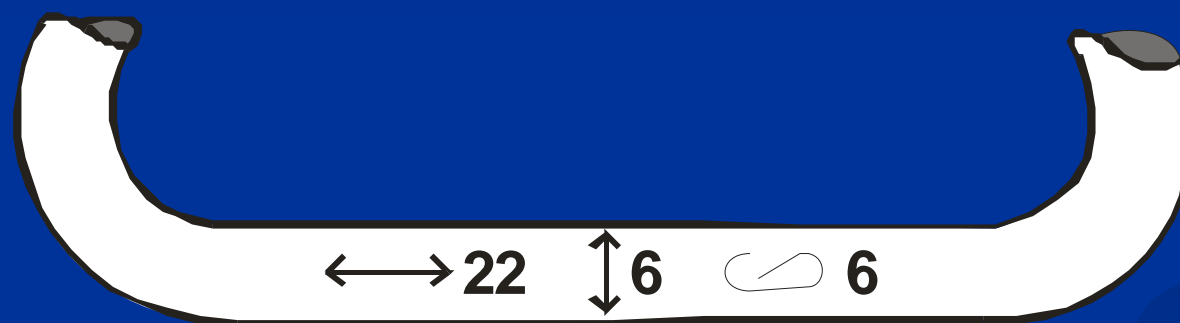

To connect two sling use reef knot
(square knot)

HMS Carabiner (EN 362)

- Screw or multiple shutter
- Aluminum or steel
- Minimum longitudinal breaking strength 22kN
- Marking on the carabiner

Markings on the carabiner

Strength in
longitudinal
direction

Strength in
transverse direction

Strength with
the snaplock
open

Omni Triact connecting element(EN362 B)

Connecting element with **limited use**

For connection of two fastenings of a harness with a fall protection system

Omni Triact Connector

Connector for closing the harness

Connector with energy absorber

Omni Triact Connector

Connector with energy absorber and safeguard rope

Belay device I'D (EN 341 Typ A)

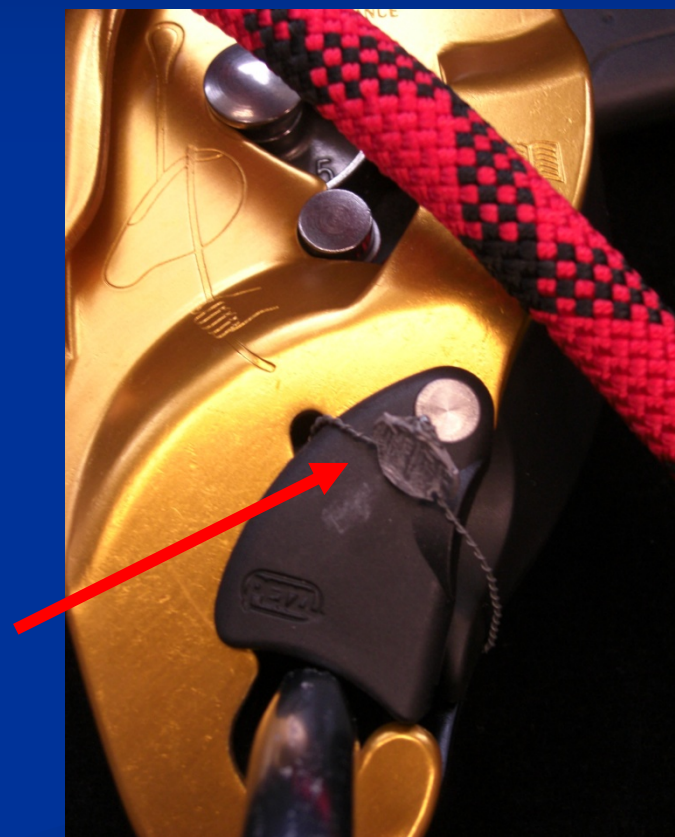

Valid for rope diameter from 10 to 11.5 mm
30 -150 Kg static work load
1 multiple lock karabiner

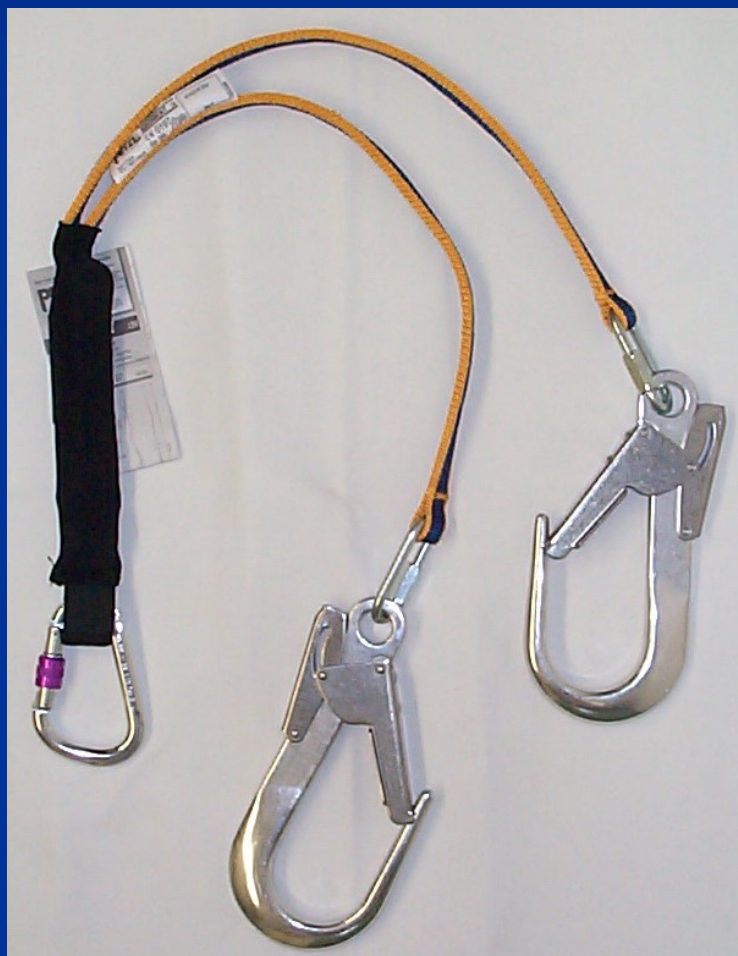

Sealed I'D

Open I'D with rope laid in

Self belay (EN 355)

- Y- sling
- Shock absorber
- carabiner with multiple closure
- 2 Scaffold hooks
- **Only for use in the front fall arrest attachment element of the harness!**
- **Forbidden to extend !!**
